

## WENDELL MINSHEW, PE

### **E d u c a t i o n**

BS – Civil Engineering, California State University, Fresno, 1981

### **P r o f e s s i o n a l L i c e n s e s**

Professional Engineer: California and Nevada

### **P r o f e s s i o n a l A f f i l i a t i o n s**

American Society of Civil Engineers (ASCE)

Solid Waste Association of North America (SWANA)

International Erosion Control Association (IECA)

### **P r o f e s s i o n a l E x p e r i e n c e**

Mr. Minshew has over 30 years of engineering experience. He has specialized in civil engineering services in the planning, design, permitting, and construction management of solid and hazardous waste facilities. His experience includes civil engineering planning, design, and construction of facilities for landfills, transfer stations, and related operations. Mr. Minshew has provided engineering services to clients primarily in the Western United States.

Areas of expertise include:

- Site grading and erosion control.
- Leachate control.
- Solid waste facility permit documents.
- Closure and Postclosure Maintenance Plans.
- Landfill operation and support.
- Landfill gas (LFG) monitoring, extraction, and control.
- Construction plans, specifications, and estimates.
- Construction quality assurance (CQA).
- Construction management.

Mr. Minshew has performed these services on a number of landfills in Northern California and is familiar with the regulatory agencies that oversee landfills.
