

# 2021 EBJ Business Achievement Awards

About the 2021 EBJ Business Achievement Awards: In October-December 2021, Environmental Business Journal solicited nominations for the EBJ Business Achievement Awards. Nominations were accepted in 200-word essays in specific categories. Final awards were determined by a committee of EBJ staff, EBJ editorial advisory board members and regular contributors. (Disclaimer: Company audits were not conducted to verify information or claims submitted with nominations)

## **BUSINESS ACHIEVEMENT: Large Firms**

**SCS Engineers** (Long Beach, Calif.) for a 37% increase in gross revenues by fiscal year-end in December 2021, representing an unprecedented jump in business, and for focusing more attention on climate change and renewable energy. SCS Engineers has grown steadily for decades, celebrating its 51st anniversary this year with Founder Tom Conrad receiving the Solid Waste Assn. of North America's (SWANA) highest honor, the Robert L. Lawrence Distinguished Service Award. SCS Engineers' core capabilities are solid and hazardous waste

management, renewable energy, land remediation, and environmental compliance. The firm's scientists, and consultants produce technologies and create sustainable programs that help run industrial operations and essential public services more efficiently while reducing greenhouse gases and environmental impacts. In addition, the firm's technologies and sustainability programs for solid waste management are finding footholds in the agricultural, industrial, and manufacturing sectors.

SCS clients entrust the company's more than 1,000 employee-owners with managing millions of metric tons of anthropogenic CO<sub>2</sub>e greenhouse gases every year. As environmental engineers, the firm collects and beneficially uses or destroys enough to offset greenhouse gas emissions annually from 14.8 million passenger cars.
