2024 Pennsylvania Solid Waste Seminar

Harrisburg, PA
Wednesday, June 5, 2024

Full event attendance provides (3) possible CEUs for the SWANA-Certification Program

This half-day seminar is designed to provide updates on the latest regulatory, policy, and technological developments in solid waste, landfill, landfill gas, and sustainable materials management.

The seminar is intended for solid waste management professionals, landfill managers, waste/recycling managers, supervisors, and operators. For attendees already possessing solid waste management and disposal experience, topics will provide a fresh perspective and cover important regulatory and technological updates. For those new to the field, topics will cover essential information on various critical aspects of waste/recycling program collections, transfer, processing, and disposal, as well as landfill development, operations, monitoring, and management.

Smart Landfills: Transforming Waste Management with Remote Monitoring

David Hostetter, PE, LEED AP, Vice President, RMC Business Manager, SCS
