

FAISAL BRAISH, P.E. PMP

Education

B.S. – Chemical Engineering, University of California, Riverside, 2007

Professional Licenses

Professional Engineer - California (No. 6628)
Project Management Professional (No. 3266209)

Professional Experience

Mr. Braish is a Project Manager with SCS Energy. He sites and designs renewable natural gas (RNG) plants. Representative projects include the following:

- 8,000 scfm RNG plant with PSA nitrogen removal and an upgraded wet scrubber in Illinois;
- 3,000 scfm, 4,000 scfm, 6,000 scfm and 8,000 scfm “standard RNG plant” designs, which will undergo site-specific modifications as the client’s projects proceed on a case-by-case basis; and
- 6,000 scfm Plant Siting study in Wisconsin using the latest progress from the standard design.

Before joining SCS Energy, Mr. Braish was employed by Primoris and Clean Energy Fuels, where he was the Project Manager or Project Engineer for several liquefied natural gas (LNG) projects, with Jacobs Engineering where he was the Project Manager for refinery retrofit projects, and with HDR, where he was Construction Manager for water, wastewater and waste-to-energy projects.
