

AIDAN GALLAGHER

EDUCATION

BS – Environmental Science, University of Central Florida, May, 2019

Professional Experience

Mr. Gallagher is responsible for coordinating and performing site assessment activities including soil and groundwater sampling, as well as being involved in project management as an Assistant Project Manager (APM). Aidan works closely with SCS's southeast regional offices and clients. Since joining SCS in 2019, he has completed environmental assessment, reporting, client service, and many other environmental tasks for municipal and private clients.

Mr. Gallagher participates in or coordinates due diligence investigations, site investigations, environmental studies, soil management, construction services, and has assisted with writing Site Assessment Reports, GW Monitoring for Drainage Approval, Iron and Arsenic Subregional Background Studies, Response to Comments, Source Removal Reports, GW Sampling Reports, and Soil Management Operating Reports. Facilities include former landfills, landfill sites, industrial sites, and agricultural sites prior to redevelopment. Other projects have included preparation of various documents for local and state regulators.

His experience includes numerous environmental site assessments, contamination assessments, remedial action plans, and remedial construction projects throughout South Florida. Chemical contamination encountered in both soil and groundwater media includes petroleum, heavy metals, pesticides, PAHs, and solvents. Example projects in which he has been involved include the following:

Agricultural Site Assessments for Home Redevelopment
