

## JANNA HALL

### Education

MS – Environmental Engineering, University of Florida, 2012

BS – Biology, Florida Atlantic University, 2000

### Specialty Certifications

40-Hour OSHA Hazardous Waste Operations and Emergency Response (HAZWOPER) Training,  
ASTM E1527 Phase I Environmental Site Assessment Certification

### Professional Affiliations

Engineers Without Borders, Florida Professional Chapter

Florida Association of Environmental Professionals, Treasure Coast Chapter

### Professional Experience

As a Project Professional, Jenna is responsible for managing environmental due diligence projects, agricultural land development, and environmental permitting and compliance for national and regional retail clients. She has experience in conducting site assessments including; subsurface investigations, remedial design and implementation, operations and maintenance, and regulatory reporting. She has in-depth knowledge of data analysis, operating procedures, and environmental compliance. Since joining SCS in June 2022, Jenna has worked with private clients and regional regulatory agencies to complete Phase I and Phase II Environmental Site Assessments, land acquisition and development assessments, and regulatory dewatering permitting.

**Confidential Client, Fort Pierce, FL, Phase I ESAs.** Environmental professional responsible for project management, site reconnaissance, and preparation of Phase I ESAs involving former agricultural sites, ranging from 50 to 270 acres, planned for residential redevelopment.

**Confidential Client, Tampa, FL, Phase I ESAs.** Environmental professional responsible for project management and preparation of Phase I ESAs involving brownfield designated sites planned for multi-family residential redevelopment.

**Confidential Client, Miami, FL, Phase I ESAs.** Environmental professional responsible for project management and preparation of Phase I ESAs involving agriculture sites planned for residential redevelopment.

**SFWMD, Collier County, Phase I ESA.** Environmental professional responsible for project management and preparation of a Phase I ESA involving approximately 11,000 acres of undeveloped and historic agricultural land for inclusion in the State of Florida Everglades Restoration Project.

**Confidential Client, Orlando, FL, Phase I ESA.** Environmental professional responsible for project management and preparation of a Phase I ESA involving an Industrial facility adjacent to a Superfund Site and on-site remedial activities.

**Confidential Client, West Palm Beach, FL, Dewatering Permit.** Preparation of a dewatering permit for redevelopment activities associated with a historic golf course facility and arsenic contaminated soil.

### Presentations

Florida Remediation Conference 12/2017 – *Pilot Test Evaluation of an Aerobic/Co-Metabolic Strategy to Degrade Low Concentrations of Vinyl Chloride in an Intermediate Aquifer.*
