

**Michael Kelly, CIRO**

**Ammonia Refrigeration Advisor - SCS Tracer Environmental**

**Education**

AS – Electronics Engineering – Missouri Technical Collage - 1994

**Specialty Certifications**

Refrigerating Engineers and Technicians Association (RETA)

    Certified Assistant Refrigeration Operator (CARO) (2015-2018)

    Certified Industrial Refrigeration Operator (CIRO) (2015-current)

**Professional Affiliations**

Refrigerating Engineers and Technicians (RETA) (2004-present)

RETA Central Florida Chapter Vice President (2020-present)

**Professional Experience**

Mr. Kelly is an Ammonia Refrigeration Advisor focusing on Mechanical Integrity Inspections of ammonia refrigeration systems for compliance with the International Institute of Ammonia Refrigeration Standard 6, "*Standard for Inspection, Testing, and Maintenance of Closed-Circuit Ammonia Refrigeration Systems*". Mr. Kelly's previous hands-on experience brings firsthand knowledge to the Mechanical Integrity Inspections and Audits.

Prior to joining the SCS Tracer team, Mr. Kelly was employed as the Facilities Maintenance Manager for Lineage Logistics, Inc., Haines City, FL from 2014 - 2022. At Lineage Logistics, Mr. Kelly was involved with PSM/RMP requirements. He was responsible for several capital projects (some PSM-related) from development, budgeting, executing and follow-up (Management of Change / Pre-Startup Safety Review).
