Professional Experience

Mr. Ralston provides SCS Field Services (SCS-FS) with 23 years' experience in Landfill Gas (LFG) Operation, Monitoring, and Maintenance. He currently works on active landfills in the Carolinas, which includes routine testing, monitoring, maintenance, and repair of LFG collection headers, extraction wells, and installation and startup of blower/flare systems.

Mr. Ralston's LFG experience includes routine operation, maintenance, extraction well monitoring, collection header line trenching and placement (both PVC and HDPE); and installation and startup of blowers, flares, pumps, and compressors. These experiences include construction of expanded systems and repair and renovation of existing systems.

As a Project Manager, Mr. Ralston provides support in regulatory compliance and is involved in the Health and Safety awareness and implementation program.

Mr. Ralston has been involved with numerous landfill gas projects, some of which include:

Allied Waste, Anderson Regional Landfill, Belton, SC.

Republic Services, Broadhurst Enviro LF, Screven, GA. Troubleshoot and replaced airlines and installed pneumatic pumps in extraction wells.

Republic Services, Brunswick Landfill, Richmond, VA.

Republic Services, East Carolina Landfill, Aulander, NC. Operation and maintenance of 96 monitoring points and flare station.
