

2022 Maryland Solid Waste Seminar

In-Person: Friday, October 14th @ Turf Valley Resort

Virtual: Friday, October 14th @ Online Via MS Teams

Full event attendance provides
(3) possible CEUs for the SWANA
Certification Program

This half-day seminar is designed to provide updates on the latest regulatory, policy, and technological developments in the solid waste, landfill, landfill gas, and sustainable materials management industries.

The seminar is intended for solid waste management professionals, landfill managers, waste/recycling managers, supervisors, and operators. For attendees already possessing solid waste management and disposal experience, topics will provide a fresh perspective and cover important regulatory and technological updates. For those new to the field, topics will cover essential information on various critical aspects of waste/recycling program collections, transfer, processing, and disposal, as well as landfill development, operations, monitoring, and management.

Management of PFAS in Landfill Leachate

Carbon & Solid Waste: Status of GHG Emissions Quantification & Reduction Landscape

MD Composting & Recycling Law

More Than RMC—Traditional Use of eTools

Photovoltaic Systems on Closed Landfills
